
SOUL CLUB TANGER WEBSITE STATUS REPORT

1. PROJECT OVERVIEW

The Soul Club Tanger website is currently a modern, visually striking multi-page static web application. It is designed to establish a premium brand presence, featuring glassmorphism, fluid typography, dark mode, and an elegant color palette (#020221, #f2f2f2, #fece12, #5e5e5e).

2. CURRENT STATE OF THE WEBSITE

The codebase consists of HTML, CSS, and vanilla JavaScript without relying on heavy frameworks.

- PAGES:
index.html (Home), about.html, activities.html, gallery.html, mission.html, contact.html.
- STYLING:
styles.css acts as the single source of truth for the project's styling. It contains variables for theming, typography, layouts (like split layouts and grids), and advanced micro-interactions.
- INTERACTIVITY:
script.js handles client-side features such as scroll animations, the dynamic dark/light mode toggle, and sticky navigation.
- ASSETS:
Organized in structured directories for founders, partners, activities, pictures, and logos.

3. RECENT WORK COMPLETED

Recent updates have significantly improved both the aesthetics and the user experience of the site:

- PREMIUM DESIGN OVERHAUL:
Implemented a state-of-the-art aesthetic with a cohesive color palette, modern typography, hover animations, and scroll reveals to engage visitors.
- DARK MODE IMPLEMENTATION:
Created robust dark mode functionality using CSS custom variables and a persistent toggle mechanism via script.js and localStorage.
- ACTIVITIES PAGE ENHANCEMENT:
Added new workshop descriptions (e.g., decoration workshop) formatted consistently within the site's premium card-based layout.
- INTERACTIVE PARTNER SECTION:
Built an animated, accordion-style card display for partners. Hovering over a partner expands its card horizontally to show more details while shrinking others.
- CONTACT PAGE REVAMP:
Transitioned the contact experience from a basic registration form to a high-end split-layout design prioritizing direct email communication.

- FAQ SECTION:
Successfully integrated an FAQ section addressing mission, membership, and club activities into the site structure.
- COMPREHENSIVE VISUAL AUDIT:
Reviewed all pages ensuring cross-page consistency of layout and CSS animations.
